NEW SEWER PLANS ADOPTED BY BOARD OF PUBLIC WORKS

Petition for "Park" Lights on Homewood Av. Referred to City Electrician.

A big improvement was added to the city Monday at the regular weekly meeting of the Board of Public Works, when plans for trunk and lateral sewers in Middleboro and Sixth st., were adopted. A petition for two "park" lights on Homewood av. was presented and referred to City Electrician A. R. Klein.

The plan for the sewer on Middleboro and Sixth st., were laid out by former City Engineer Charles Cole, and when the sewers are completed, will admit drainage to property abutting on the following streets: Middleboro st. from River st. to Sixth st.; River st. from Ernepenger st. to Dale av.; Sixth st. from Ernepenger st. to the east line of the Middleboro addition; Strattham st. from River st. to an alley north of the Lincoln highway; Monroe Street, west of Dale av. to near Lincoln highway; Berlin st. from River to Delaware st.; Grand av. from Sixth st. to Delaware St.; Dale st. from Sixth st. to Delaware st.;

and Millburn st. from Berlin st. to Dale av.

There has been considerable agitation from property owners along these streets, for this sewer.

TEMPLE

In making scenes for "No Defense" in which William Duncan and Edith Johnson are starred, an ideal location was selected, and on it was discovered an Indian living alone in one of the picturesque teepees of that race. His name is John Buffaloheart, and he claimed to be a direct descendant of Running Bull. This old Indian was vivid with stories of Indian wars in which he had participated. Now he was the last of his tribe and living alone in the wilderness growing corn, and making trinkets of sweet grass and bark which he sold to tourists. Four times each year this Indian goes to San Francisco and Los Angeles with his wares and sells them to a large curio house in those cities.

"No Defense" and Larry Seman in "A Pair of Kings," are shown today at the Temple last times.

MISHAWAKA CITY COUNCIL HOLDS REGULAR MEETING

Claims Totalling \$18,399.51 Allowed—Special Appropriation Made.

At the regular meeting of the Common Council of the city of Mishawaka, held Monday night, claims against the city for \$18,399.51, were approved. The report of the city comptroller was also read and admitted. It was found necessary at this time to make an appropriation from the general fund to several special funds.

These appropriations were made necessary because deductions from the special funds were started one month ago this year, than were those of last year. The appropriations allowed various departments were as follows: Finance, \$500; Law, \$200; engineer, \$250; board of works, \$100; police, \$7,000, and fire \$6,000.

Consideration of placing an electric "wigwag" alarm at the New York Central crossing on Logan st. was brought up, but no definite action was taken at this time.

Charles Werner and William Ottenstein appeared before the council and gave a short talk on the urgent necessity of Mishawaka having a building code, relative to plumbing work, stating that at the present time, all a plumber needed, to ruin any job was the necessary money which to buy a license and "no questions asked." The council agreed that there appeared urgent necessity of a complete building code, and action will be taken on the question in the near future.

The following is the city controller's report for the month of September:
